What is Sustainable Seafood?

Sustainable seafood is fish or shellfish that is caught or farmed in ways that consider the long-term viability of harvested populations and the ocean's health and ecological integrity. Choosing sustainable seafood is an effective way to support the best practices in the fishing and aquaculture industries to ensure our ocean resources last long into the future.

Determining Sustainable Seafood

Seacore has been working with and collaborating for years with the leading Canadian Sustainable Seafood organizations - SeaChoice, Ocean Wise and MSC. They all use the best available science, strategic communications and partnerships to mobilize sustainable seafood markets throughout Canada.

The entire OceanPrime Sustainable Seafood Program and the products considered sustainable have all been identified and assessed by SeaChoice, Ocean Wise and/or MSC. For more information please visit:

www.opsustainable.ca

Seacore is a co-founder of Sea Pact: United for a Sustainable Future | www.seapact.org

Guiding Principles

OceanPrime
Sustainable Seafood

powered by

SeaChoice.org
for healthy oceans

Seacore Seafood recognizes its role in helping ensure a sustainable future for the seafood we buy and sell, and the overall health of our oceans. As one of the largest seafood distributors in Canada, we aim to be a model of sustainability in the Canadian seafood marketplace and continue to be a proactive leader that is well positioned to supply sustainable seafood products to our customers.

Make a Commitment

Commit to developing and implementing a comprehensive, corporate policy on sustainable seafood.

Collecting Data

Assess and monitor the environmental sustainability of our seafood products.

Buying Environmentally Responsible Seafood

Support environmentally responsible seafood choices through purchasing decisions.

Be Transparent

Make information regarding your seafood products publicly available.

Educate

Educate our customers, suppliers, employees and other key stakeholders about environmentally responsible seafood.

Support Reform

Engage in and support policy and management reforms that leads to positive environmental outcomes in fisheries and aquaculture management.
