CACAO BARRY

Since its creation, **Cacao Barry**® has been entirely committed to creativity, innovation and above all passion. It all started with the quest of its founder Charles Barry, who travelled to Africa in 1842 to seek out the best cacao bean varieties for his first true connoisseur's chocolate. In 1923, the company was catapulted into the international arena, making **Cacao Barry**® the first to investigate cacao cultivation in Latin America and other continents. Whether with the first range of rare-origin chocolate couvertures, the highly sought-after aromatic refinement of the first Plantation Millésimés, the revolutionary Q-Fermentation™ Method or the launch of its new Itinero™ application – a free application that allows to find the best chocolate pairings – **Cacao Barry**® has constantly raised the bar, setting new standards for the chocolate industry.

Today **Cacao Barry**® provides the most complete palette of products, to all passionate chocolate craftsmen around the world: moulds, chocolate and couvertures, pralinés, origins and exclusive plantations, inspiring them and opening doors to new creative experiences. **Cacao Barry**® also offers the widest international community of chocolate professionals, Ambassadors' Club and academies – including a new Chocolate Academy™ in Montreal that will open in the fall of 2014 to support craftsmen and chefs on their quest for perfection.
